

Vitalii Malyk

Junior frontend developer

Summary

As a junior front-end developer, I have a solid skill set covering HTML, CSS, JavaScript, and React, and a solid understanding of back-end technologies such as Node.js and Express.js. My experience extends to using Agile/Scrum methodologies, ensuring efficient delivery of projects within set deadlines and budget constraints, while prioritizing improving the user experience. My passion for programming is fueled by the prospect of making a positive difference in both personal and business endeavors.

Project experience

PowerPulse, Link front, Link back, [React, Redux-Toolkit, JS, CSS, Node.js, Express.js, TypeScript]
